

Addendum to GPRA Tool

This Addendum is to be used to gather additional information about a client's Methamphetamine use and about consent, questions which appear and must be entered at screening and on the automated version of the GPRA now in use on the VMS.

Methamphetamine Question

Either question one or question two below is to be asked of every client upon intake, in addition to the question in the GPRA tool related to 30-day use.

1. Did the individual use methamphetamine in the last 90 days prior to intake AND will he/she be receiving services specifically related to his/her methamphetamine use?

Yes No

OR

2. For individuals coming from a restricted setting*: Did the individual use methamphetamine in the 90 days prior to entry into the restricted setting AND will he/she be receiving services specifically related to his/her methamphetamine use?

Yes No

* For purposes of this question, a restricted setting means jail, juvenile hall, probation camp, prison, or other lock-down setting.

Question related to Consent for Client Satisfaction Survey

Did the client consent to, and sign the release of information for, ADP to contact him/her by mail or telephone to conduct a confidential client satisfaction survey?

Yes No
